## PROJECTS

### MERN Stack Application

- **Objective:** Developed a full-stack web application to manage tasks effectively.
- **Role:** Full Stack Developer responsible for both front-end and back-end development.
- **Skills Utilized:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB.
- **Impact:** Achieved a user-friendly interface reducing task management time by 30%.

### Java Spring Boot Project

- **Objective:** Created a web application to handle user authentication and data management.
- **Role:** Backend Developer focusing on implementing RESTful APIs.
- **Skills Utilized:** Java, Spring Boot.
- **Impact:** Enhanced data retrieval speed by optimizing database queries.

### PHP and ASP.NET Projects

- Developed smaller scale projects involving user forms and database interactions using PHP and ASP.NET.
- Showcased foundational skills in server-side programming and database management.

### Additional Information

- **Hobbies:** Exploring new technologies, contributing to open-source projects, and engaging in web development community forums.
- **Professional Development:** Actively pursuing online courses in advanced web technologies and frameworks.

**Work Experience - Fresher Web Developer**
